The battery system main using solar power system for family house. It also have a with to controller the battery easily and protect our Household application timely. Product Appearance. Iron Phosphate-lithium power battery. Higher energy density, smaller volumn for household.

Solar battery. 1)Gel battery,2 years warranty.ship NEW for service. 2)Lithium battery,3 years warranty.ship NEW for service. According to the experience of the engineer to install, the 35cm(battery to battery) and 2m(battery to inverter) wires can be directly installed, saving installation time.

2 ???· The Philippines is working on the largest solar power plus battery storage project in the world, breaking ground on the project just a few weeks ago. ... (MW) and a battery storage ...

Most modern batteries only perform at its best with temperatures of around 30 degrees. We often go beyond this in the Philippines, causing a battery to lose efficiency. Keep in mind: In the Philippines, you can make use of net-metering, the mechanism where a utility pays you for excess solar energy that is transferred back to the main grid.
