Explore 4 Solar Generators With Replaceable Batteries (Lead-Acid & Lithium) for top insights on solar power systems and how to enhance efficiency for your setup ... 100Ah batteries. For the Yeti 1250, there are three ways to charge up the solar generator. By connecting to either the Nomad or Boulder solar panels, you can charge the Yeti 1250 ...

So, I hope to use the Anderson port outlet to power a dc to dc charger to charge a smaller 100ah battery, and then power my van from that battery. I also have the Ecoflow alternator charger, so I don"t want to hook the dc to dc charger up to my starter batt, but DP to 100ah stand alone battery. Anyone know if a dc to dc charger is necessary?

This is a very simple YES. A 100w solar panel can charge a 100ah battery, it could even charge a 1000ah battery, it just takes a proportionately longer time. The fact your 40ah battery is fully charged by 10am tells us that you"re not using much power overnight. So a 100ah battery would also be charged by 10am each day with the same use.

Nature"s Power Pod is made to be used in conjunction with the Nature"s Generator. It comes with an internal 100Ah Sealed Lead Acid battery that can be recharged through the solar panel input on the front of the unit. On the front of ...
