

# Ball camera bracket solar panel

How do I connect my solar panel to spotlight CAM Pro?

Wrap any spare cable round the cable holder, and clip the cable into one of the cable stops. Connect your Solar Panel to your Spotlight Cam Pro, using the USB-C cable. Use the cable clips to secure the cable in place. Was this article helpful?

How do you attach a solar panel to a wall?

Screw the bracket to the wall. If mounting to brick, concrete or stucco, use wall anchors and 6mm drill. Slide the Solar Panel onto the bracket until it clicks into place. Loosen the adjustment nut and adjust the positioning as required. Tighten the adjustment nut when positioned.

How do you mount a ring solar panel?

Mount your compatible Ring Solar Panel and Cam together on any flat surface with direct sun exposure, using just one set of holes to secure the mount. Once installed, extend the pole and adjust your solar panel angle to reach up higher for maximum solar power. Operating Conditions: 22°F to 158°F (-30°F to 70°C). Weather Resistant

How do you attach a camera to a ring?

Push the ball joint into the socket until it snaps into place. Adjust the camera angle. Rotate the camera to focus on the area of your choice. Look at Live View in the Ring app to make sure it's positioned at your desired angle. Tighten the security screw. Then, tighten the screw on the metal collar to secure the camera position.
