

Bolivia iberdrola solar

Is Iberdrola a sustainable company?

Iberdrola has established itself as a global benchmark in sustainable financing, being the first private group in the world to issue green bonds - after becoming the first Spanish company to issue a bond of these characteristics in 2014. The group currently has almost 20,000 million euros of outstanding green bonds.

What is IFC's relationship with Iberdrola?

IFC's relationship with Iberdrola dates back to 1998 with financing for Iberdrola's subsidiaries in Bolivia. Iberdrola has established itself as a global benchmark in sustainable financing, being the first private group in the world to issue green bonds - after becoming the first Spanish company to issue a bond of these characteristics in 2014.

Is Iberdrola a leader in green finance?

Iberdrola is a leader in green finance. Last December, Europe's leading electricity company and the world's second largest by stock market value signed its largest ever credit line for EUR5.3 billion with 33 banks at similar prices to those agreed in 2019 and with a cost linked to the fulfilment of a series of ESG objectives.

Why did Iberdrola get a loan from the World Bank?

The loan is part of the collaboration signed in May last year and is linked to reducing polluting emissions and expanding Iberdrola's renewable capacity. Iberdrola receives new recognition from the World Bank, through its private sector investment arm - International Finance Corporation (IFC) -.

Will Iberdrola continue to contribute to the energy transition?

José Sainz Armada, Iberdrola's Director of Finance, Control and Corporate Development, said: "This loan will allow Iberdrola to continue contributing to the energy transition, decarbonisation and electrification in developing countries - which are still highly dependent on fossil fuels.

Does the World Bank support electrification in Bolivia?

The World Bank has been supporting electrification in Bolivia's rural sector since 2006. WASHINGTON D.C., November 20, 2023 - The World Bank Board of Directors approved US\$125 million in financing to support the Plurinational State of Bolivia in expanding and improving access to sustainable electric service for rural homes and communities.
