How much did BrightSource invest in the Ivanpah solar power plant?

The Ivanpah Solar Power Facility, BrightSource's 377 MW, 3,900-acre (16 km²) plant opened on February 13, 2014. The total cost of the Ivanpah project was \$2.2 billion. The largest investor in the project was NRG Energy, a power generating company based in Princeton, New Jersey, that contributed \$300 million.

Who is BrightSource Energy?

BrightSource Energy, Inc. is an Oakland, California based, corporation that designs, builds, finances, and operates utility-scale solar power plants. Greentech Media ranked BrightSource as one of the top 10 greentech startups in the world in 2008. BrightSource was formed with seed capital from VantagePoint Venture Partners.

How does Ivanpah power a solar power plant?

Ivanpah will employ BrightSource's power tower solar thermal technology, which generates power the same way as traditional power plants - by creating high temperature steam to turn a turbine. However, instead of using fossil fuels or nuclear power to create the steam, BrightSource uses the sun's energy.

How much money did BrightSource raise in 2010?

By May 2010, the total amount raised was \$337 million. BrightSource Industries (Israel) Ltd., formerly named Luz II Ltd., is a wholly owned subsidiary of BrightSource Energy, Inc. Based in Israel, BrightSource Industries is responsible for solar technology development, plant design and engineering.

Is bright-source energy a problem?

Just such as the burrow shown here. Courtesy: Bright-Source Energy is a problem, depends on whom you ask. It's undisputed that several dozen to several hundred birds have been killed over the past year or so, and this was enough to create

When did BrightSource start building a solar power plant in Coyote Springs?

In 2009, BrightSource Energy announced plans to build a 960 MW (1,290,000 hp) solar thermal power plant in Coyote Springs that would be on line by 2012. In 2010, BrightSource hired Morgan Stanley and Goldman Sachs to begin preparations for a public offering in 2011.
