

Can the locker be placed at the end of the bed

How far apart should a bedside locker be?

Spacing: The ideal spacing between bedside lockers and a bed will be determined by its function. If you want to have items within arm's reach, then it is recommended that you place the locker approximately one to two inches away from the bed. On the other hand, if your locker is purely for aesthetic purposes, it can be placed further away.

How to choose a bedside locker?

If you have a bed with a bold coloured headboard, then you may opt for a more neutral bedside locker so that you don't overpower the space. Alternatively, if you have a minimalist design style, you may opt for a locker to serve as a main design feature. Height: The height of your bedside locker is one of the key factors to consider.

Do bedside lockers add value?

Bedside lockers are far more than just a prop when it comes to the overall look and feel of your bedroom. They add value through their functionality and style, and, most importantly, they help to make your day-to-day living more comfortable. They provide a luxurious statement piece, and they complement a bedroom of any size.

Do bedside lockers have drawers?

As many bedside lockers have drawers, they promote excellent sleep hygiene. You can store your phone and electronic items safely away from your eye level as you settle down for a great night's sleep.

What is a Foot Locker?

Foot locker? Obviously, if it were at the head of the bed, it would be a head locker. Definitely a hope chest. I'd go with either cedar chest or foot locker. I'm thinking you want a place to sit while getting on your socks and shoes. The bed is usually too high for this so many people have a bench or chair at the foot of their bed.

Are floating bedside lockers a good idea?

Also, their small design means floating bedside lockers are incredibly cost-effective. Unfortunately, while saving on floor space, you do have to compromise on the strength of the bedside locker. A floating shelf will only be able to hold a light lamp and a book. Even then, sagging may very well become a problem.

I put mine on my 5-drawer cart and used some 1/8" thick 90 metal to bolt casters to. As long as where you need to drill through on the bottom side where it bolts to the main box doesn't line ...
