

How Aqualectra is promoting green energy in Curacao?

Aqualectra is promoting the use of green energy in Curacao by already supporting schools to install solar panels on their roofs. Currently,23 percent of Aqualectra's power supply is green, and the company aims for a total of 50 percent by 2020.

How can Curacao's future be developed?

One way to develop Curacao's future and decrease the use of polluting fossil fuels is to introduce, facilitate, and stimulate the usage of electric cars. Aqualectra is planning to increase its current vehicle fleet from two to six electric cars.
