

Ecostruxure grid Mauritius

Who is EcoStruxure grid?

Start your sales inquiry online and an expert will connect with you. Schneider Electric Global. EcoStruxure Grid transforms the world of energy for electricity companies to create smart grids and integrate renewable generation for sustainable networks.

What is the smart grid roadmap for Mauritius?

The Smart Grid Roadmap for Mauritius was launched in December 2018 to help the CEB integrate new technologies in the power system, enhancing reliability, safety, and security. In line with this roadmap, solar technology, such as solar photovoltaic (PV) energy, is an attractive energy option due to Mauritius' year-round, intensive sunlight.

What is Schneider Electric EcoStruxure?

EcoStruxure is Schneider Electric's IoT-enabled, plug-and-play, open, interoperable architecture and platform, in Homes, Buildings, Data Centers, Infrastructure and Industries. EcoStruxure delivers one architecture, serving four end markets (Building, Data Center, Industry, Infrastructure), with six domains of expertise:

What is EcoStruxure platform?

Enabling you to act based on real-time information and business logic. The EcoStruxure Platform is the foundational technology backbone on which Schneider Electric solutions are built and delivered. Visit EcoStruxure Platform on se.com/us

Who owns the Central Electricity Board in Mauritius?

The Central Electricity Board (CEB) is a parastatal body wholly owned by the Government of Mauritius and operating under the aegis of the Ministry of Energy and Public Utilities. PO Box 134 Rue du Savoir, Ebene Cybercity Ebene 72201 Mauritius Tel: +230 404-2000 ceb@ceb.mu

What is EcoStruxure & why is it important?

Apps, Analytics, and Services Interoperability is imperative to supporting the diverse hardware and systems in building, data center, industry, and grid end markets. EcoStruxure enables a breadth of agnostic applications, analytics & services for seamless enterprise integration.
