

Elysia battery intelligence Zambia

What is Elysia battery intelligence?

It brings a new generation of battery intelligence to a wide range of industries, from the automotive and e-mobility sectors, to stationary energy storage and beyond. Elysia's unique capabilities offer unprecedented insight and foresight, unleashing untapped performance, life and safety to every electric vehicle, and every battery on the planet.

What is Elysia battery monitoring?

This includes both the algorithms operating locally on the battery and remote monitoring in the cloud, which is what Elysia supplies to customers. The aim is to prioritize safety but also make the most efficient use of batteries, including longevity.

Will JLR use Elysia battery intelligence on EVs?

JLR will be applying Elysia battery intelligence to forthcoming EVs like the Range Rover Electric. Elysia might not be a name you're familiar with. However, it used to be Williams Advanced Engineering and changed its name after being purchased by giant mining company Fortescue.

What's Happening: WAE Technologies has launched Elysia, a cutting-edge battery intelligence software designed to significantly enhance the life, safety, usable energy, power, and rapid charging capabilities of any battery system. Elysia will offer unprecedented battery insight, management, and optimization to various industries, including automotive, ...

Elysia Embedded is a suite of state-of-the-art battery management algorithms, which run locally on the Battery Management System (BMS) - for example directly on an EV's battery or on a stationary energy ...

UK-based technology and engineering services company WAE Technologies today launched its Elysia battery intelligence software offering to unlock significant improvements in the range, life, safety, power, and rapid charging times of EV (electric vehicle) batteries. The company says it brings game-changing battery insight, management, and optimization to the ...

Technology and engineering services company WAE Technologies (WAE) launched Elysia, its mass-market Battery Intelligence software offering designed to unlock significant improvements in the life, safety, usable energy, power, and rapid charging times of any battery system. Elysia features state-of-the-art embedded and cloud-based products which ...

Software Delivery Manager - Elysia Battery Intelligence. Kidlington; Full-time; Perm; 40 hours per week; THE POWER OF NOW. Fortescue Zero's mission is to be the world leader in zero emission power systems. We are developing and manufacturing the technologies needed to decarbonise our planet. We are expanding across the geographies of UK, US ...

Elysia battery intelligence Zambia

Gaydon, UK - 20 May 2024: JLR has signed a multi-year deal to use Fortescue's advanced battery intelligence software, Elysia, in its next-generation electric vehicles. The software will ...

Elysia's cutting-edge battery intelligence software, shaped by over a decade of motorsport expertise, enhances battery longevity, performance and safety. Our unique software and cloud tools provide OEMs, operators and financiers the insights to manage, optimise and enhance battery performance throughout its entire life cycle. ...

Elysia Cloud combines expert battery knowledge, world-class data science, and systems understanding to turn standard telematics data into powerful insights. Built on over a decade's worth of real-world battery experience from Fortescue ...

Introduction WAE & Elysia Advantage WAE are uniquely positioned in a Battery Intelligence market, harnessing the best of different domain expertise. o Our know-how in Battery Intelligence stems from over a decade of practical battery systems experience as designers, manufacturers and integrators.

Elysia is the world-leading battery intelligence offering from WAE Technologies (formerly Williams Advanced Engineering). Drawing on over a decade of high-performance battery expertise from WAE, who have designed and manufactured the world's most advanced batteries - from global electric motorsport programmes to electric mining trucks - Elysia provides OEMs, battery ...

The future of battery management: combining Elysia Cloud with Elysia's powerful Embedded BMS algorithms, to enable bespoke, health-adaptive BMS parameters to be pushed to individual assets, unlocking performance whilst mitigating ...

WAE Technologies (WAE) launches Elysia™, the latest in Battery Intelligence for the mass market, from the automotive, commercial vehicle and e-mobility sectors to stationary energy storage and beyond o Drawing on more than a decade of high-performance battery expertise from the racetrack, Elysia brings game-changing insight to the most fundamental ...

Elysia's battery intelligence technologies comes from WAE's experience in high-performance batteries from supplying the electric motorsport series, and the development of batteries for electric hyper-cars and mining trucks. Joe Jones, Commercial Lead at Elysia, said: "With increased utilisation of an electric shared vehicle, it becomes ...

WAE Technologies (WAE), the world-leading technology and engineering services business, today launches Elysia, its Battery Intelligence software offering designed to unlock significant improvements in the life, safety, usable energy, power, and rapid charging times of any battery system. Elysia brings game-changing battery insight, management, and ...
