

Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its products for power product comprising for bus, truck, rail, marine, stationary, and emerging market, such as material handling, off-road, and other applications. ...

Ballard Power Systems Inc (Ballard) is a global leader in the design, development, manufacture, sale, and service of Proton Exchange Membrane (PEM) fuel cell products. The company's primary business revolves around the production of environmentally clean electrochemical devices that combine hydrogen fuel with oxygen to produce electricity.

A next-generation high-performance fuel cell propulsion system to power unmanned aerial vehicles (UAVs), or drones, has been engineered by Ballard Power Systems. The company has partnered with Insitu, a Boeing subsidiary, over the last two years to integrate Ballard's prior generation fuel cell propulsion system into the ScanEagle UAV platform.

Ballard Power Systems and Element 1, a pioneer in on-demand hydrogen technology, have engaged in a new collaborative project to develop hydrogen power initiatives and bring sustainable energy solutions to wider global markets incorporating heavy-duty transportation, off-road, and marine.

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane fuel cell products for markets such as heavy-duty motive, portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Ballard Power Systems Inc. se dedica al dise&#241;o, desarrollo, fabricaci&#243;n, venta y servicio de productos de pila de combustible de membrana de intercambio prot&#243;nico (PEM) para diversas aplicaciones, centr&#225;ndose en productos de alimentaci&#243;n para autobuses, camiones, ferrocarriles, aplicaciones marinas, estacionarias y de mercados emergentes (manipulaci&#243;n ...

Rolling stock manufacturer Stadler Rail has awarded Ballard Power Systems with a contract for the delivery of fuel cell engines to equip the first hydrogen-fuelled train in the US. Ballard will provide six 100kW FCmove ...
