

How long does it take for JA Solar panels to leave the factory

How much power does a JA Solar panel produce?

Power output of most home solar panels in the UK is 250W to 400W. JA solar panels are either at the higher end of this range or exceed it. For example, JAM60S20/MR solar panels offer 21 per cent efficiency with a peak power output of 390W, at a lower price than similar solar panels from many other manufacturers.

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around £90. Sharp sells a similar model for around £40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

Is JA Solar a good brand?

JA Solar is considered a high-efficiency budget brand, so while the panels have good performance, the cost per watt is still below what most competitors charge. Temperature Coefficient (10%): The temperature coefficient of a panel tells you how much of the panel's efficiency is lost per degree over 77 degrees (F).

Are JA Solar panels good?

The reviews for JA panels are generally pretty positive, with customers specifically mentioning that the solar production was equal to or better than what they expected. This is unsurprising, seeing as JA panels have above-average efficiency ratings. Additionally, customers comment regularly on the overall quality for the money.

How efficient is JA Solar?

JA Solar has an average efficiency rating between 20% and 21%, putting it above the industry average. It also reaches max efficiency ratings of 22.5%, which puts it in the top five most efficient solar panel brands in the industry. High efficiency ratings mean greater production levels and higher savings over time.

How long does JA Solar warranty last?

JA Solar comes with an above-average performance warranty term of 25 to 30 years. The industry average is around 20 years. However, the equipment warranty from JA only lasts 12 years, which is less than half the industry average of 25 years.
