

Jiechang drive photovoltaic bracket

How many R&D centers does jiechang have?

Jiechang has three R&D centers in Xinchang, Hangzhou and Taiwan with over 200 engineers. Over 400 projects were patented with the cooperation with European and American experts and famous institutions. With fully automatic production lines, Jiechang is capable of timely delivery to domestic and foreign customers with million annual production scale.

What makes jiechang products a good brand?

Jiechang products quality comes from careful research, high quality raw materials, precise production as well as full extensive tests, with a quality warranty of 5 years. Jiechang has three R&D centers in Xinchang, Hangzhou and Taiwan with over 200 engineers.

Who is jiechang?

As one of China's high-tech enterprises, Jiechang took the lead in creating the industry standards for the linear actuator and height adjustable table market in China. The company actively helped building up the industry and its standard processes. Currently, Jiechang has subsidiaries as well as production sites in Asia, Europe and the USA.

How many employees does jiechang have?

The company has a total of 247000 square meters, 1800 employees and a turnover of 1.4 billion RMB in 2019. Jiechang has promoted the industrialization and standardization of the domestic electrical lifting desks industry. With experienced engineering groups, Jiechang is able to customize for its customers innovation.

Why should you choose jiechang?

We provide the intelligent motion solutions to intelligent office, medical care, smart home, technical industry and many other fields. As one of China's high-tech enterprises, Jiechang took the lead in creating the industry standards for the linear actuator and height adjustable table market in China.

A photovoltaic bracket is an essential component of the installation of solar panels. Its role is to support the solar panel and fix it in the correct position to capture solar energy to the maximum extent. Different materials and designs ...

Xiamen Jinmega Solar Technology Co., Ltd is the world's leading manufacturer and solution provider for solar tracking brackets, fixed brackets, and BIPV systems, including solar ...

Photovoltaic tracking brackets are available in various configurations, including single-axis and dual-axis trackers, each offering different levels of precision and performance based on the ...

Jiangsu Guoqiang SingSun Energy Co., LTD. is located in Liyang City, Changzhou, Jiangsu Province, with

Jiechang drive photovoltaic bracket

more than 1,700 employees Guoqiang SingSun, as a service provider focusing ...

Taizhou Suneast New Energy Technology Co., Ltd is a high-tech enterprise specializing in solar photovoltaic bracket design, production, installation and related consulting services. Company ...

GS-style photovoltaic brackets, which feature a design similar to satellite receiving antennas" "dish" supports, include a north-south horizontal axis and an east-west inclined axis. This ...

photovoltaic plate is raised, which can effectively prevent the photovoltaic module from being soaked by rain. In windy weather conditions: When accompanied by high winds, ...

The company has provided customers with a series of customized solutions for photovoltaic support. ... Eastfound provides a series of customized solutions for safer and more reliable ...

Jiangsu Goodsun New Energy Co. is the Manufacturer of Photovoltaic Bracket, Solar Module Frame and China PV Mounting System. ISO & OEM Available. Skip to content. Facebook Linkedin-in Whatsapp +86 135 2442 5435 ? +86 172 ...
