

Lebanon electric moving shelves

How does a movable shelving system work?

An infrared light beam projected the length of the carriage at its base, stops system movement when broken. If a person enters a closing aisle, cross-aisle sensors stop the system from moving when triggered. Spacesaver light-duty movable shelving systems allow for easy reconfiguration and relocation of your high-density mobile shelving needs.

What is a mobile shelving system?

Mobile shelving systems, also known as shelves on rails or shelves that move, offer safe and convenient access. Donnegan Systems, as the only Spacesaver-authorized dealer in New England, can help you learn more about these systems.

What is an eclipse powered mobile shelving system?

The Eclipse powered mobile shelving system is easy to configure, simple to use and exceptionally safe. Eclipse Electrical Powered Mobile Shelving Systems are a great solution to tackle almost any storage challenge.

What is high-density mobile shelving?

High-density mobile shelving is a system that eliminates wasted space and doubles storage capacity by allowing you to store shelves on top of each other. Conventional, non-moving shelves create aisles that waste space.

What is an automatic shelving system?

An automatic shelving system is a solution for improving space efficiencies, productivity, and organization for whatever you're storing. Automatic shelving systems can help you manage files and boxes, bulky industrial items, automotive parts, and more effectively.

What is eclipse shelving?

By creating a movable aisle that can compact your shelving, Eclipse shelving provides extra space for the activities that have a direct impact on your business -- whether that's additional offices, lounge areas, more work spaces, or even extra storage space.
