

Lumos solar Saint Martin

What are Lumos solar panels made of?

Our modular SolarScape structures are made from powder coated aluminum and can be configured to meet just about any project's requirements. SolarScapes are designed to work perfectly with our LSX & GSX Module Systems and are the most aesthetic mounting solutions available. How can I buy Lumos Solar panels and mounting systems?

What is the Lumos LSX frameless module system?

The Lumos LSX Frameless Module System is a solar panel solution developed by Lumos. It has revolutionized the solar panel industry, which has seen little change since the 1970s. Lumos is dedicated to creating solutions to overcome barriers to solar energy adoption and make it a mainstream power source. Lumos is the art of solar.

How to buy a solar system on Sint Maarten?

Many banks already offer so-called "green loans", financing the purchase of your solar system on Sint Maarten for a monthly installment that may be even lower than the monthly price you pay for electricity now. Even though the calculation below is as up to date as possible, it is still an indication.

Are Lumos solar panels made in USA?

All Lumos Solar products are proudly Made in the USA! Are Lumos Solar panels bifacial? Our GSX modules are made using bifacial cells, allowing the module to produce energy from both sides. Depending on the reflectance of the surface below, you can expect to see 10% -30% more energy production. What are Lumos SolarScape structures?

What is Lumos?

Lumos is a company founded in 2006 with the intention to build a business whose products and services make a positive and lasting contribution to the world. Solar technology is proven and reliable and is here today to make the transition to clean, renewable energy.

How can I use Lumos solar panels?

Lumos LSX and GSX Module systems can be easily integrated into virtually any new or existing structure for use in carports, facades, awnings, canopies, or any structure you can imagine. Our SolarScape pre-engineered, pre-fabricated modular structures can be configured to fit any location.

The ClearSpan Module System was designed from the ground up to be the best solar module solution for parking deck and carport applications. The unique shingled frames of our CSX modules with the Clear Span Rail create an ultra durable waterproof array that is built to last.
