Massachusetts is one of the most affordable places to install solar.

Does Massachusetts have a solar energy program?

Massachusetts has a robust solar energy program, particularly for solar installations on closed landfills. There are more than 80 projects with over 250 MW of capacity.

How many solar farms are there in Massachusetts?

Phase I consists of six solar farms that can produce nearly 5 MW of power. These facilities are located all over Massachusetts, in locations such as Dorchester, Sutton, and Haverhill, to name a few. These were some of the earliest large-scale solar facilities constructed in Massachusetts.

What does Massachusetts' solar for all do?

Massachusetts' Solar for All team is engaged in ongoing community engagement and program design activities to ensure that we are prepared to begin implementing programs as soon as possible after receiving funds.
