Of course, there are many other sizes and specialised containers for specific cargoes. A FEU is twice the length of a TEU container. However, this does not mean the shipper can pack 21 tons of cargo in a TEU container, and pack 42 tons of cargo in a FEU container.[4] TEU are designed to carry more weight than voluminous cargo.

Bring power to your shipping container today! Stay off the grid and make the most out of your storage. Perfect

internationally. Get your reliable and durable heavy-duty offshore containers with Emicla today!

The power pack can only power the reefer container roughly 4 hours or so. However, an MGM Reefer Genset
can increase the use of reefer container up to additional 12 hours. In result, a backup genset can help lower the
downtime of your reefer container and increase its uptime by providing more power supply during long hours
transportation.

If your operation will need to power 20, 30, or 40+ reefer containers, then be sure your power pack is sized to
meet at least 70% of that number consistently. In this way, you will not risk unexpected generator shut-down
due to overloading and your connected load will be sufficient enough to avoid problems associated with
wet-stacking. Be realistic

Shipping containers are indispensable for international transport and storage of goods and resources. MK
