How much does a solar roof cost in the UK?

By contrast, on average, 3.5kW worth of solar panels will set you back £7,026. But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading. To give you some idea, the average cost to replace a roof in the UK is £5,500.

How much does it cost to replace a roof with solar tiles?

But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading. To give you some idea, the average cost to replace a roof in the UK is £5,500. If you're looking at roofing with solar tiles, you could spend anywhere between £3,000 and £18,000. But the cost is only part of the story.

Are solar panels better than roof tiles?

High initial costs: The purchase cost of solar slates is much higher than regular roof tiles. They can be twice as expensive as solar panel systems with similar wattage. **Less efficient than bolt-on solar panels:** On average, solar tiles' efficiency is 10-20%. Most solar panels have an efficiency of at least 16%, sometimes even 22%.

Can solar panels be installed on a roof?

In contrast, traditional solar panels can be installed, uninstalled, and reinstalled fairly easily. Not every roof can accommodate them: A roof must be pitched and angled perfectly to be suitable for solar roof tiles. Once again, solar panels are relatively easier to install on 'difficult' roofs. **Conclusion:** Are solar slates right for my home?
