

In environments more open, not to say respectful of the people's intelligence and their constitutional right to know, an incident such as the recent arrest of Dr. Iftekar Shams on charges including human trafficking, money laundering and fraud would've warranted the immediate convening of a press conference by the licensing authority. But this is Saint [...]

The top prizes offered for Power Play are far from being the world jackpot records, but all of them are good for the locals. Typically, the top-winning amount begins at EC\$1,500 and continues to increase incrementally until it reaches EC\$150,000.. Usually, full matches occur every 3-4 months, so the top awards rarely exceed EC\$150,000.

In Jamaica, the consumer gets a Customer Interphase Unit resembling a security alarm keypad, which the power company installs in the home. The unit beeps when only five kilowatt-hours remain. If the consumer cannot top up before the credit expires, they can call the power company for an additional five kilowatt-hours.

Developed by Shams Power Company, a joint venture between Masdar, Total and Spain's Abengoa Solar, the \$600m plant will power 20,000 homes in the UAE and displace 175,000 tonnes of CO2 per year. The CSP plant also features a dry-cooling system that reduces the consumption of water, a critical benefit in the arid desert.
