Some solar companies rely on subcontractors to perform some-or all-the work during your solar installation. Don't let this put you off: It's entirely standard procedure in the industry. What is alarming, though, is a lack of transparency from installers about who will install your system and why they use subcontractors.

3. Explore incentives and rebates. Incentives and state and federal tax rebates can substantially cut your overall costs to install solar. The Federal Investment Tax Credit (ITC) alone can save you 30% on the upfront
