How can solar power plants benefit Senegal?

The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal. Because Senegal mainly relies on imported oil for electricity, solar power plants offer a more reliable and sustainable green energy source that costs less.

Who sponsors Senegal's solar power plants?

The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments ( FONSIS ). The competitive tendering process was led by Senegal's Energy Regulatory Commission ( CRSE ). For more information, please read the press release [here](#).

How many jobs will the new solar power plants create in Senegal?

The addition of the solar power plants form part of the World Bank Group's Scaling Solar program and are funded by the International Finance Corporation (IFC), European Investment Bank and Proparco. The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal.

Who financed the Senegalese solar park?

The construction of the solar park was financed with a loan from the German development agency Kreditanstalt f&#252;r Wiederaufbau (KfW). The plant has been designed to operate for 25 years. According to the authorities, the plant is capable of supplying 33,000 Senegalese households.
