

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Is solar energy making a comeback in Sudan?

Fortunately, the country is now witnessing a comeback to solar energy as it is an effective tool to drive development, employment, and stability - particularly in rural and agriculture-focused communities. "In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this.

What is the first-ever directory of solar energy companies in Sudan?

The first-ever directory of solar energy companies in Sudan The Guide was officially inaugurated in a hybrid event held on March 31st, 2022 at the headquarters of 249Startups- one of the leading startup incubators in Sudan.

Can Sudan adopt solar power?

On the other hand, there is a promising potential in adopting solar power in the country. Germany, the leading country in solar energy, averages less than 140 hours of sunlight per month in its sunniest city Stuttgart. Sudan's location allows it to receive up to 11 hours of direct sunlight daily, equivalent to 436-639 W/m² of solar energy density.

Is solar a viable alternative to fossil fuels in Sudan?

"In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this. First, it is an alternative to fossil fuels, so importation and transport challenges are avoided, environmental benefits provided, and ongoing fuel costs eliminated.

How much sunlight does Sudan get a day?

Sudan's location allows it to receive up to 11 hours of direct sunlight daily, equivalent to 436-639 W/m² of solar energy density. This equips the country with the necessary resources to leap in the renewable energy sector.

"In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this. First, it is an alternative to fossil fuels, so importation and transport challenges ...
