for "an improved quality of life for the people of the Marshall Islands through clean, reliable, affordable, accessible, environmentally appropriate and sustainable energy services." This energy mandate is consistent with "Vision 2018", the Marshall Islands Strategic Economic Development Plan for 2003-2018.

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.
