Solar panel full set Belgium

The return calculation is a trap. They compare solar panels to solar panels + battery. The solar panels are subsidizing the batteries. The real calculation should be the return of only the battery itself. With 4000kWh it is usually earned back after at least 10 years, and the warranty of most batteries are only 10 years.

A complete solar panel installation typically costs an average of 3 000 to 5 700 euros, including installation costs and excluding VAT. The exact cost of your solar panels depends on factors such as the type of installation and the number of panels, while the number of panels you install depends on your energy consumption.
