

Solar photovoltaic panels for tenants to rent

Are solar panels a good option for renters?

The simple answer for renters who want solar panels for their apartment or house is that it's possible!

Can a landlord install solar panels on an apartment?

Furthermore, even if both you and your landlord are willing to install solar panels for the apartment, you will need permission from relevant institutions. Since landlords own only the flat and not the entire apartment block, they need approval from bodies such as neighbour councils or building management boards.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

How can a renter benefit from community solar?

If you're a renter looking to benefit from solar, the best way to start is to compare community solar projects on the EnergySage Community Solar Marketplace. By subscribing, you can filter by all sorts of project details, read about individual developers and panel locations, and compare your estimated yearly savings.

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Are plug-in solar panels suitable for renters?

In any case, plug-in solar panels are a suitable solution for renters as they can take the panels with them if they move to a different place. Of course, you will have to research what size the solar panel kit should be to meet your requirements and check if your city has any regulations in place on the use of these types of panels.

When looking for alternative ways to go solar, other than giving your landlord a call and talking through an installation on your apartment building or home, community solar (also known as roofless solar, solar gardens, or ...
