What is Dubai's largest concentrated solar power project?

Credit: AETOSWire. Dubai has inaugurated the world's largest concentrated solar power (CSP) project within the 950MW fourth phase of the Mohammed bin Rashid Al Maktoum Solar Park in the UAE. The project was launched by UAE Prime Minister and vice-president Sheikh Mohammed bin Rashid Al Maktoum.

When will a 1 GW solar park be built in Dubai?

The emirate of Dubai announced in January 2012 that a 1 GW Mohammed bin Rashid Al Maktoum Solar Park would be built in phases and completed by 2030 in Seih Al Dahal, around 50 km south of Dubai city, to meet its renewable energy supply target.

How sustainable is Dubai solar park?

It has a planned production capacity of 5,000 MW by 2030, with investments totalling AED 50 billion. When completed, it will save over 6.5 million tons of carbon emissions annually. The Mohammed bin Rashid Al Maktoum Solar Park contributed to DEWA winning the Best Sustainable Project of the Year in the UAE at the 2014 MEED Quality Awards.

How many GW will Dubai's solar power plant generate?

The plant was implemented by the Dubai Electricity and Water Authority (DEWA). The first phase of the project was commissioned on 22 October 2013. At the end of 2020 the solar PV complex reached a generating capacity of 1.013 GW with the aim to reach 5GW by 2030.

Which is the largest single-site solar park in the world?

The Mohammed bin Rashid Al Maktoum Solar Park, which DEWA is implementing, is the largest single-site solar park in the world, using the Independent Power Producer (IPP) model. It will have a production capacity of more than 5,000MW by 2030 with a total investment of AED 50 billion.

What is the capacity of Dubai solar park?

The total capacity of the projects under construction at the solar park is 1,800MW from PV technology. The Solar Park supports the Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Carbon Emissions Strategy 2050 to provide 100% of its energy production capacity from clean energy sources by 2050. Phases of energy production
