

Solar systems specials Jamaica

How much do solar panels cost in Jamaica?

As of Mar 2023, the average cost of solar panels in Jamaica is \$2.92 per watt making a typical 6000 watt (6 kW) solar system \$12,283 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt.

How can I buy solar energy equipment in Jamaica?

The Development Bank of Jamaica (DBJ) offers loans to assist in buying solar energy equipment. The loans can be obtained at an interest rate of 3 per cent over a maximum period of 5 years with a 5 per cent service charge. The funds for these loans are provided by the World Bank.

Can I go solar without a JPS light-bill?

Power all your appliances with green energy produced by the sun, totally off-grid with no JPS light-bill to worry about. Just keep JPS as your secondary power supply. The process is very easy, simply call our sales team for all the information you will need to go solar. With an experienced team we made this job look easy.
