Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Will Fiji become home to the largest solar project in the Pacific?

The island nation of Fiji will become home to the largest solar project of its kind in the Pacific, a 15MW project that will significantly lower the country's reliance on costly imported fossil fuels.

How will Fiji's New solar power project impact the world?

The \$A21 million project is expected to generate enough electricity to transition 14,000 Fijian households to solar energy and will dramatically reduce Fiji's reliance on imported fossil fuels. Currently, approximately 45% of Fiji's power needs are supplied through fossil fuels, 50% through hydropower, and the remaining 5% from biomass and wind.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term.
