The Planning and Development (Solar Safeguarding Zone) Regulations 2022 set out 43 Solar Safeguarding Zones (SSZs). A SSZ is an area around an airport, aerodrome or helipad in which there is a potential for glint or glare from solar panels to impact aviation safety. A square metre limit on rooftop solar panels applies within these zones.

In the winter, the glass allows warmer solar rays into the house but won't let the heat escape from your home. SolarZone Elite glass packages When you make the choice to install SolarZone glass for your windows, you have the ability to have them come with the Energy Star qualified SolarZone insulated glass package.
