What is Vinci Energies?

2019 VINCI Energies activity report Yearbook 2019 Profile In a world undergoing constant change, VINCI Energies focuses on connections, performance, energy efficiency and data to fast-track the rollout of new technologies and support two major changes: digital transformation and the energy transition.

How can Vinci Energies expand in Africa?

Business Unit Manager,Omexom Transmission Major Projects j "In its drive to expand in Africa,VINCI Energies wants to use local resources to the greatest extent possible. Given the scale of our requirements and the relatively limited number of post-secondary graduates,we have opted to welcome the most promising talent during their training.

How can Sudan achieve energy self-sufficiency?

Encouraging solar and wind power in the country's energy portfolio could help Sudan achieve its goal of energy self-sufficiency. Egyptian policies such as nurturing and promoting renewable technologies and scientific research,feed-in tariffs, and tax exemptions could help Sudan achieve its objectives.

What can Sudan do with abundant onshore wind?

With abundant onshore wind,Sudan can adopt successful African strategies and attract regional and international energy initiatives,such as the Africa-EU partnership program,the Africa Clean Energy Corridor, and Power Africa .

Is Sudan's Energy Sector Sustainable?

Further, Sudan's energy sector is currently subsidised by the government. Government subsidies to the sector totalled \$667 million in 2019. This represents 13.5% of total government expenditures . Financial sustainability could be achieved by introducing gradual tariff adjustments.
