

Supplementary Agreement on Photovoltaic Panel Lease

How do I end a solar panel lease in the UK?

To end a solar panel lease in the UK, you must make some form of payment to the solar company. The lease agreement will outline the conditions and formula for wrapping up the contract, but there are three broad options: Under a buyout, you pay the outstanding balance on the lease agreement.

Do you need a lease for PV panels on a residential property?

This guidance provides information for photovoltaic (PV) panel providers and the public about lenders' minimum requirements with respect to consenting to a lease of roof space for the installation of PV panels ('the panels') on the roof of a residential property.

What is a solar lease?

Solar leases are similar to car leases; they are a form of third-party ownership. Under a solar lease, the third party installs solar panels on your property and then sells you the electricity produced. Your monthly lease payment is based on the estimated annual production of your solar system.

Can I lease a roof space for solar panels?

If you continue we'll assume you are happy to receive them. Most lenders' mortgage conditions will require the lender's consent to be obtained to any lease. This includes a lease of roof space for solar panels.

How does a solar lease payment work?

Your monthly lease payment is based on the estimated annual production of your solar system. Ideally, the annual lease payment in Year 1 of the lease agreement should match your energy savings in Year 1. The lease agreement will have a fixed term length, typically 20 to 25 years. At the end of the fixed term, you can either:

Can I lease a roof space for PV panels?

Anyone considering agreeing to a lease of their roof space for fitting PV panels should be aware that most lenders' mortgage conditions will require the lender's consent to be obtained to any lease.
