

Svalbard and Jan Mayen solar generator for home backup

What is the best solar-powered generator for home backup in 2024?

Not any more. Read on to find the best solar-powered generator for home backup in 2024 -- and beyond! The EcoFlow DELTA 2 solar generator is the perfect entry-level home backup solution. With the option to choose between one or two EcoFlow 220W bifacial portable solar panels, you get a ton of bang for your buck.

Why do we need a solar backup generator?

Backup power for the home has become critical because of our increased reliance on connected devices including phones, and laptops. Solar backup generators are not just for powering home appliances like refrigerators and air conditioner - more and more, they are being purchased to provide reliable backup power for critical medical devices.

Which solar generator kit should I buy?

If you want a complete home backup solar generator kit that's ready to use, I recommend this EcoFlow Delta Max solar generator + 220W solar panel combo. It's enough to keep your most essential appliances powered and devices charged during an extended blackout. Complete solar generator kit with foldable solar panel.

How many watts can a backup solar generator power?

Smaller units typically have a lower power capacity and can only charge small devices. Backup solar generators can typically power at least 1,000 watts, which should be enough to power appliances like small lights, a fridge, or a television.

What is the best solar generator for home backup?

The Renogy Lycanis is one of the largest and most capable solar generators in the market right now. It's designed to be wired to a home power grid. You can even set it up as a UPS, ensuring essential appliances stay powered in a blackout. That, plus its fast charging performance makes the Lycan 5000 one of the best solar generators for home backup.

Can a solar generator be used as a whole-house backup?

Most solar generators have smaller lithium batteries that are good for a few hours to a couple of days. It's hard to find a solar generator you can use for whole-house backup. You have to choose which electronics you want to run in an emergency. You are also limited in terms of output.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.
