

Is the EU partnership with the Gambia a good idea?

The forthcoming EU Partnership with The Gambia will be flexible and responsive enough to address the challenges of the agenda of the democratic transition, whilst sufficiently consistent and well-targeted.

How has the EU helped the Gambia transition?

Since the change of regime in 2017, the EU has provided significant political and financial support to the democratic transition in The Gambia. The country has since achieved progress in several areas (freedom of expression, reduction of the use of torture).

Does the EU cooperate with member states active in the Gambia?

Nevertheless, enhanced coordination and co-creation with Member States active in The Gambia is ensured and the analysis and responses provided in the present document are shared by Member States as well as by a number of European stakeholders (EIB, MS development banks). 1.3. Priority areas of the EU's cooperation with the partner country

Are EU and EIB a strong development partner of the Gambia?

Once again it demonstrates that The EU and EIB are strong development partner of the Gambia. The project will transform the electricity sector of The Gambia via through the 'Solarisation' of up to 1000 schools and 100 health facilities especially the remote areas of the country.

What does the EU Global Gateway grant mean for the Gambia?

Today The Gambia, the EU and the EIB announced the signature of a EUR24.08 million EU Global Gateway grant to be used alongside an EUR8 million EIB loan to support the implementation of a renewable energy on and off-grid generation, transmission and distribution programme across The Gambia.

Does the Gambia have a Bilateral Development Cooperation Programme?

At this stage, no Member State has a bilateral development cooperation programme in The Gambia and it is therefore not possible to properly programme the possible participation of Member States on the basis of their national sources of funding. The same goes for EIB, which programme their interventions on a multiannual basis in a given country.

1. This Decision shall apply to nationals of The Gambia who are subject to the visa requirement pursuant to Regulation (EU) 2018/1806. 2. It does not apply to nationals of The Gambia who are exempt from the visa requirement under Articles 4 or 6 of Regulation (EU) 2018/1806. 3.

Efficiency of the CHP: How to compare correctly. The XRGI stands up to efficiency tests. Its total degree of utilisation of up to 106 % (with condensing technology) means that the energy used is almost completely utilised during full operation. It also scores with constantly high degrees of utilisation, when

measured over the long term.
