

The bay window locker can be moved

What is a bay window?

A bay window is a style of window that protrudes outwards from a wall, and it typically consists of three glass panels. By projecting outwards, they can provide additional space to the internal area of a home by creating a bay or alcove. Our legacy sash windows can be incorporated into a bay window.

Do bay windows need planning permission?

Bay windows are classed as an extension as they protrude away from your property's walls. Usually, you only need planning permission when installing bay windows at the front of your property. Fitting the windows on the side or back of your home can usually be done without planning permission.

Do action wall ties repair bay windows?

Kent based Action Wall ties repair bay windows suffering from cracks, movement or dropped lintels and arches. Existing masonry is repaired and reinforced.

Should a bay window be positioned at the front of a property?

When a bay window is positioned at the front of a property that is exposed to the road, privacy can be compromised, though this can be remedied with the addition of blinds, shutters, curtains or obscured glass. Higher maintenance.

What happened to a single-storey bay window?

Cracks had formed in the first-floor brickwork and window arches. Radiating cracks had also opened up in the plaster and finishes around the bay window. The front single-storey bay has started to pull away from the building. The timber Bressumer lintel above the bay window was soft, over-stressed and deformed.

How do you attach a bay pole to a window?

Also, make sure the frame adaptor is touching the inside lip of the outer frame. Once you are happy the bay pole and the frame adaptor are level, fix screws (45mm self-tappers) into the aluminium bay pole, one at the top and one at the bottom then 500mm apart, fixing into the centre of the reinforcing on the window.
