

The factory installs solar power for free

Can solar panels be installed on a factory roof?

The roofs of factories are often the ideal place to install solar panels. As factories are energy-intensive buildings, installing a solar PV system on the roof of a factory ensures free power can be generated to run everything underneath it.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

Can a green energy company install solar panels on a roof for free?

A green energy company is installing solar panels on a roof for free and then selling the electricity to the owners at a reduced price. Electron Green is paying to put up and maintain more than 200 solar panels on a factory owned by PPE manufacturer, Respirex, in Redhill, Surrey.

Can you get free solar panels?

If you're eligible, you could be entitled to up to 100 per cent off the cost of your solar panels. Sarah Blyth lives in Whitstable, Kent, with her two children. Her home had an EPC rating of E, and she receives Universal Credit, which includes Housing Benefit and Child Tax Credit. She talked us through her journey to getting free solar panels.

How do I qualify for free solar panels in the UK?

You may qualify for free solar panels if you're eligible for one of the UK's four main grants. However, two of these grants are only available in England, one can only be accessed in Wales, and all of them come with stringent qualifying criteria that target the most deprived households.

How do I get solar panels?

To get solar panels, you must use an electric heating system. The Local Authority and Supplier Flex (LA Flex) scheme is an extension of ECO4 that enables councils to help deprived homes which don't match ECO4's eligibility criteria.

You can qualify for free solar panels in the UK through the government's ECO4 scheme if you're part of a low-income, electrically heated household with a vulnerable resident who receives a qualifying benefit.
