Who is bright renewables?

Bright operates with specialized business lines for sales, engineering, and services. Looking forward, Bright Renewables is committed to leading the sustainable energy transition, leveraging our innovative spirit to power a cleaner, brighter future.

How can bright renewables improve biogas plant efficiency?

To produce gaseous bioCO<sub>2</sub> or liquid bioCO<sub>2</sub> with our in-house CO<sub>2</sub> liquefaction technology. Bright Renewables' biogas upgrading system and CO<sub>2</sub> liquefaction, bio-LNG, and bio-CNG as ideal add-on technologies form a comprehensive suite to enhance biogas plant efficiency and sustainability.

What makes Bright renewables unique?

We take immense pride in our daily pursuit of developing new technologies to expedite the global energy transition. Bright Renewables, with its headquarters in the Netherlands, is a pioneering force in the renewable energy sector, deeply rooted in a tradition of innovation and sustainability.

[Vancouver, WA, July 24, 2024] - Bright Renewables, a leading force in the deployment of biogas upgrading and valorization technology, and BerQ RNG, a pioneer in transforming biogas into carbon-neutral, pipeline quality Renewable Natural Gas (RNG), have joined hands to develop four renewable natural gas projects that will help mitigate methane emissions.

Bright Renewables is a one-stop-shop for biogas upgrading, offering systems for the upgrading of biogas and landfill gas. Specifically designed for biogas, our PurePac upgraders utilize membrane technology to ensure high-quality purification. For landfill gas, we employ a dual approach, combining membrane technology with pressure swing ...

Bright Renewables, con sede en los Países Bajos, es una fuerza pionera en el sector de las energías renovables, profundamente arraigada en una tradición de innovación y sostenibilidad. Como empresa familiar de un grupo mayor fundado en 1991, Bright ha crecido hasta tener presencia en todo el mundo, incluidas nuestras instalaciones de ...
