If you see a used 30kwh battery, resist the temptation to buy it - those packs are just too hard to predict, as far as longevity and long-term soundness go. It's unlikely that you will get the chance to buy a 62kwh battery from an ePlus, but those require substantial additional work and expense. Your best bet is a 40kwh battery.

The LEAF battery case is a different shape and has no connection for the e-NV200's battery cooler. Traction batteries for these two vehicles are not interchangeable. (LEAF battery has a bump which fits under the car's back seats; e-NV200 battery is more or less flat. Especially when it's at a low state of charge, when it's flat in two ways.)
